LOST & FOUND

January-February 2022

URL: <https://lost-found-doc.netlify.app/>

Lost & found is a website that helps to find lost documents, and was created by a group of 4 people with the role of a front-end developer and assisting in the back-end.

- Accept to create an account.
- Accept to upload a lost or a found document.
- Able to notify both users lost and user found if the lost document has been found.
- Implemented in React JS for frontend, Node JS for backend, and MongoDB for the database

ACADEMY WOMAN ENTREPRENEURS

May 2022

URL:<https://awe-rwanda.netlify.app/>

The website shows what the AWE is doing. I am still working on it.

- Created using Javascript Programming Language with React Js, CSS, Material UI.
